April 29, 2016
10 am — 12 pm

This year’s annual celebration of Arbor Day in Balboa Park will be held behind the Pepper Grove Playground, off of Park Boulevard. With your help, we will be planting a total of 14 new trees in Balboa Park. Our trees this year will be the:

**Wollemia nobilis** is a rare pine tree that has been rediscovered in 1994 in an Australian National Park and has only been able to be identified through the use of fossil records. This species has been dated to 200 million years ago and is classified as endangered.

**Ginko biloba** is a popular tree that has been dated to 270 million years ago. Its deep roots, resistance to wind, diseases, and insects make this tree perfect for the urban jungle we have in San Diego.

Please contact our Community Programs Coordinator, Leslie, at Leslie@FriendsOfBalboaPark.org or call the office at (619) 232-2282 for more information or to make your donation today!
